The Company has received a certificate from the Auditors to the effect that their appointment if made, would be within the prescribed limits under Section 141(3)(g) of the Companies Act, 2013

The auditors observations and its reply are as under :

Basis for Qualified Opinion

1. Note No. 22 to the standalone financial results, regarding Non provision of interest of Rs. 549.64 Lacs on NPA accounts for the year under consideration The exact amounts of the said non provisions of interest are not determined and accounted for by the Company and to that extent Bankers loan liabilities are understated and loss is understated.

Reply:

The interest provision on loan of Punjab and Sindh Bank has not been accounted due to legal dispute. The Honourable Calcutta High Court larger Bench has ruled in favor of the Company. However the Bank has preferred an appeal to the Honourable Supreme Court of India. The matter pending before legal forum and hence the same is not accounted for.

2. Note No. 16 to the standalone financial results, regarding uncertainties relating to recoverability of loans & advances given to M/s. Gateway Commodities (P) Ltd. amounting to Rs. 5,14,01,172/- (Previous year Rs. Rs. 5,36,44,817/-) and Non Provision of interest @ 9% of Rs. 46,93,172/- as at 31st March, 2019. The management has explained that such advances have been given in the normal course of business. The management, based on internal assessments and evaluations, have represented that the balance outstanding advances are still recoverable/ adjustable and that no accrual for diminution of advances is necessary as at balance sheet date and the aforementioned balances are fully recoverable. However, we are unable to ascertain whether all the remaining outstanding advances, as above, are fully recoverable / adjustable since the outstanding balances as at balance sheet date are outstanding for a long period of time. In the absence of sufficient appropriate evidence we are unable to comment upon the carrying value of these loans & advances and recoverability of the aforesaid dues and the consequential impact if any on the accompanying standalone financial statements. Our audit opinion on the standalone financial statements for the year ended 31 March 2019 was also qualified in respect of this matter.

Reply :

The Company is in the process of making recovery of trade receivables and loans and advances. The Company is exploring all legal options for the same. It could be seen from the qualification itself that there is a reduction in the outstanding amount.

3. Note No. 5 to the standalone financial statements regarding taking physical and/ or symbolical possession and initiating auction process on various assets by lenders; however the company has received stay order against these proceedings and matter is sub-judicial till date. The management has not performed any impairment assessment for these assets. Accordingly we are unable to ascertain the appropriateness of the carrying value of these assets and consequential impact if any on the accompanying standalone financial statements. Our audit opinion on the standalone financial statements for the year ended 31 March 2019 was also qualified in respect of this matter.

Reply to above Qualifications : In reply to the above mentioned qualification your Directors state that the attachment of properties by the Bank is a legal process and the Company is taking all legal steps to protect the property. The Properties were given as security for the loan availed by Fairdeal Supplies Limited. Fairdeal Supplies Limited has reached an Settlement agreement with UCO Bank and also with The Jammu and Kashmir Bank Limited. Consequent upon the payment of the settlement amount with Banks, the Company expects to release the property.

4. Note No. 35.8 to the standalone financial statements regarding Corporate guarantee given against credit facilities availed by an associate concern and non-compliance of prescribed section under the provisions of the erstwhile Companies Act 1956/ Companies Act 2013 respectively and for which the Company has filed an application with respective authority; however approval in this regard is pending till date. Due to uncertain consequence in this matter we are unable to identify impact if any on standalone financial statement, our audit opinion is qualified.

In reply to the above mentioned qualification of the Independent Auditors' Report the Board of Directors hereby replies that the Company at the time when M/s. Fairdeal Supplies Limited, a Group concern of the Company obtained the loan from the Banks, the financial conditions and other prospects of M/ s. Fairdeal Supplies Limited were excellent. The Board of Directors of the Company did not forecast that loan availed by M/s. Fairdeal Supplies Limited will be defaulted. The Bankers of M/s. Fairdeal Supplies Limited have stipulated condition to give the collateral and guarantee for the facilities to be availed by the Fairdeal Supplies Limited.

The Board of Directors of the Company would further like to state that it has already filed necessary petition before the respective authorities for compounding the matter.

ANNEXURE VII

MANAGEMENT DISCUSSION AND ANALYSIS

Industry Scenario /opportunity & Out Look / Risk & Concern:

Your Company is basically engaged in Transportation, Wind Energy and Trading of Automotive Parts, Renting of Immovable Properties. The details in respect of sector wise outlook, strengths, threats and risks attached to each segment, performance of the Company in each segment is mentioned as under:

Transport Sector:

The road transportation industry has been the most significant constituent of the Indian logistics industry. However, the segment continues to struggle to cater to the country's size and widely spread consumption hubs.

Opportunities in Transport Sector:

Increase in economic development of the Country will ultimately require increase in transportation of goods and Services. Further Road Transportation is one of the cheapest mode of transport and goods can be transported from one place to another, even in remote areas. Furthermore due to increase in prices of land, big industries are located in remote areas and which provides more opportunity for the transportation sector. Further, improvement in the quality of road infrastructure has played a critical role.. Further with the introduction of Goods and Services Tax movement of vehicles has become easier. Further the development of roads and highways have made the movement of vehicles easier.

Strength of the Company in Transport Sector :

Your Company has more than 100 Commercial Vehicles, either directly or indirectly and has entered into contract with various companies for the transportation of goods. The Company has experience of more than 2 decades in the Transportation Sector. Thus the Company has good network in the field of the transportation Sector.

Weakness of the Company in Transportation Sector:

Competition is one of the factors affecting the performance of the Company. Further the Sector requires capital investment which is getting costlier day by day for the purchase of new commercial vehicles. Lack of ability of the Company to invest in new commercial vehicles is one of the major weaknesses of the Company.

Risk in Transportation Sector:

Increase in overhead costs is also another risk associated with the transportation Sector. Further customers do not pay in proportion to the increase in the input prices, if any.

High cost of manpower also affects the transportation sector.

Further slowdown in the economic activity of the industries also affects the growth of the Sector.

Performance of the Company in Transportation Sector:

During the year under review, your Company continued to get / renewed transportation Contracts from valued customers to cater needs of its valued clients. The Revenue from Transport Operations marginally increased from Rs. 16.90 Crores to Rs. 18.14 Crores registering a increase of 7.33%

Trading in Automotive Parts:

Industry Scenario /opportunity & Out Look / Risk & Concern:

The growth outlook for the automotive aftermarket industry in India continues to be positive, driven by sustained increase in vehicle population and a shift towards higher-end vehicles.

Except for large automotive distributors, players across the aftermarket faced margin pressure in the last few years. This trend is likely to continue as most players in the Indian aftermarket are still sub-scale and will be at risk of margin decline due to pricing pressures as well as rising costs.

Opportunities of the Company in Automotive Parts:

Your Company has distributorship of BOSCH Ltd and also of Mahindra & Mahindra Ltd, Tractor and Farm Equipment Limited which are very reputed international brands. Sale of such branded parts provides customer satisfaction and more demand from the Customers.

Strengths of the Company in Automotive Parts:

Your Company is acting as the Main Distributor for Auto Components manufactured by “BOSCH Ltd.” for the Automotive Aftermarket and supplies such spares to Authorised Service Centers of Bosch as well as to retail outlets and neutral garages and workshops.

BOSCH is the global leader in Automotive Components and “BOSCH” brand products come as OE fitments in all ranges of vehicles worldwide. With newer models of vehicles being introduced in the market every year, the business has very good potential in future.

Your Company is acting as the Super Distributor for Auto Components & Farm Equipment manufactured by “Mahindra & Mahindra Ltd. and Tractor and Farm Equipment Limited,” for the Automotive Aftermarket. With newer models of vehicles being introduced in the market every year, the business has very good potential in future.

Risk of the Company in Automotive Parts:

The margins from the automotive parts depend upon the policy and pricing of components by BOSCH Ltd., Tractor and Farm Equipment Limited and by Mahindra & Mahindra Ltd over which the Company has no control. Manufacturing of parts by local suppliers at cheap rate is also another risk associated with the automotive parts.

Performance of the Company in Automotive Parts:

The Revenue from trading Operations of automotive parts of decreased from Rs. 24.61 Crores to Rs. 25.23 Crores registering an increase of 2.51%.

Wind Energy Generation:

Industry Scenario & Out Look:

India is moving towards energy sufficiency and at the same time emphasis is improving on renewable energy contribution. Emphasis of the Government is adding up renewable energy. Accelerated depreciation will help in furthering the cause of commissioning more wind mills.

Opportunities in Wind Energy Sector:

Thermal and Coal Power projects involve storage, transportation and pollution problems and hence Wind Energy is one of the cleanest sources of energy. Wind industry is attracting large investments.

Policies of the government are enabling the company to supply quality power to the consumers. Company has realized revenue faster from the group captive consumers than selling power to the utility.

Strength of the Company in Wind Energy Sector:

Your Company has installed Wind mills in the strategic areas whereby wind blows at a faster pace which helps the Company to generate more energy. It is one time investment leading to returns for number of years.

Weakness of the Company in Wind Energy Sector:

Competition from other energy source like Thermal, Solar and Bio Mass is impacting Wind Energy badly. Company has to follow industry norms and compete. Once the industrialization picks up, we may expect the prices to go up again.

Risks in Wind Energy Sector:

Generation of wind energy depends upon the weather. A good monsoon will enable generation of more power. Government policies also play an important role in determining the prices and also availability of Grid to export power to our consumers.

Our power is being utilized by the group captive consumers. Company may face problem if our consumers are facing impact on international / national prices of the commodities.

Performance of the Company in Wind Energy Sector:

The Revenue from Operations of the division decreased from Rs. 1.62 Crores to Rs. 1.27 Crores registering a decrease of 31.60%

Renting of immovable properties:

Industry Scenario & Outlook:

During the year under the review, the real sector has witnessed slowdown. The Slowdown in real sector is mainly due to huge supply and lower growth of economy. Rentals from real estate have also come down significantly. However it is expected that the demand of the real estate will increase in the years to come forward. Central Government and State Government also play an important role in the growth of the Sector.

Opportunities of the Company in Real Sector:

High Population growth and rapid expansion of the urban area, resulting in higher demand for real estate.

Further the company expects that in the years to come the economy will improve and will result in more demand which will also lead to increase in rental income and rental business.

Weakness of the Company in Real Sector:

Huge Interest Burden and liquidity crisis is one of the major weaknesses of the Company to invest in the real estate.

Risk of the Company in Real Sector:

High Investment in the Real Sector is one of the major risks that the Company foresee in the real estate. Further rentals from real estate will depend upon the growth of the economy.

Qualified Opinion

We have audited the standalone financial statements of **FRONTLINE CORPORATION LIMITED** ("the Company"), which comprise the Balance Sheet as at 31st March 2019, and the Statement of Profit and Loss, Statement of Changes in Equity and Statement of Cash Flows for the year then ended, and notes to the Financial Statements, including a summary of Significant Accounting Policies and other Explanatory Information.

In our opinion and to the best of our information and according to the explanations given to us, except for the effects of the matter described in the Basis for Qualified Opinion section of our report, the aforesaid standalone financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2019, and loss, changes in equity and its cash flows for the year ended on that date.

Basis for Qualified Opinion

1. Note No. 22 to the standalone financial results, regarding Non provision of interest of Rs. 549.64 Lacs on NPA accounts for the year under consideration The exact amounts of the said non provisions of interest are not determined and accounted for by the Company and to that extent Bankers loan liabilities are understated and loss is understated.
2. Note No. 16 to the standalone financial results, regarding uncertainties relating to recoverability of loans & advances given to M/s. Gateway Commodities (P) Ltd. amounting to Rs. 5,14,01,172/- (Previous year Rs. Rs. 5,36,44,817/-) and Non Provision of interest @ 9% of Rs. 46,93,172/-as at 31st March, 2019. The management has explained that such advances have been given in the normal course of business. The management, based on internal assessments and evaluations, have represented that the balance outstanding advances are still recoverable/ adjustable and that no accrual for diminution of advances is necessary as at balance sheet date and the aforementioned balances are fully recoverable. However, we are unable to ascertain whether all the remaining outstanding advances, as above, are fully recoverable / adjustable since the outstanding balances as at balance sheet date are outstanding for a long period of time. In the absence of sufficient appropriate evidence we are unable to comment upon the carrying value of these loans & advances and recoverability of the aforesaid dues and the consequential impact if any on the accompanying standalone financial statements. Our audit opinion on the standalone financial statements for the year ended 31 March 2019 was also qualified in respect of this matter.
3. Note No. 5 to the standalone financial statements regarding taking physical and/ or symbolical possession and initiating auction process on various assets by lenders; however the company has received stay order against these proceedings and matter is sub-judicial till date. The management has not performed any impairment assessment for these assets. Accordingly we are unable to ascertain the appropriateness of the carrying value of these assets and consequential impact if any on the accompanying standalone financial statements. Our audit opinion on the standalone financial statements for the year ended 31 March 2019 was also qualified in respect of this matter.
4. Note No. 35.8 to the standalone financial statements regarding Corporate guarantee given against credit facilities availed by an associate concern and non-compliance of prescribed section under the provisions of the erstwhile Companies Act 1956/ Companies Act 2013 respectively and for which the Company has filed an application with respective authority; however approval in this regard is pending till date. Due

to uncertain consequence in this matter we are unable to identify impact if any on standalone financial statement, our audit opinion is qualified.

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matters

Your attention is drawn to the following matters in the notes to the financial statements as fully described therein:

1. Regarding notices issued by lenders under prescribed provisions of the Securitization and Reconstruction of Financial Assets and Enforcement of Security Interest (SARFAESI) Act 2002 for non-payment of principal and interest thereon after the due date by the company and therefore those loan accounts became Non Performing Assets effective from respective dates mentioned in such notice. We are informed that the company has challenged the notices and the Bank's action to sale these properties of the company by filing a Securitisation Application in the Debts Recovery Tribunal, Kolkata, which is pending. The lender has also filed an Original Application in the Debts Recovery Tribunal, Kolkata, which is pending. The company has also filed a Civil Suit in Kolkata High Court against lender in regard to Specific Performance of Agreement related to one of the property which lender intended to sale. Matter stayed by High Court and the lender preferred to file appeal at the Supreme Court against the order of Calcutta High Court. These matters are sub-judice. These factors along-with other matters as set forth in said notice raise substantial doubt about the company's ability to continue as a going concern in the foreseeable future. However, the company's financial statements have been prepared on going concern basis as disclosed by management in notes.
2. Non Availability of balance confirmation from some of the suppliers and loans & Advances.
Our opinion is not modified with respect to the above matters as listed under Emphasis of Matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Information Other than the Standalone Financial Statements and Auditor's Report thereon (Other Information)

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Corporate Overview, Board's Report, Management Discussion and Analysis Report and Report on Corporate Governance in the Annual Report of the Company for the financial year 2018-19, but does not include the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon. In connection with our audit of the financial statements, our responsibility is to read the other Information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements that give a true

and fair view of the financial position, financial performance, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As a part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit.

We also:

- (a) Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- (b) Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- (c) Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- (d) Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- (e) Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the "**Annexure - A**", a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

As required by Section 143(3) of the Act, we report that:-

- (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
- (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
- (c) The Balance Sheet, the Statement of Profit and Loss, and the Cash Flow Statement dealt with by this Report are in agreement with the books of account.
- (d) In our opinion, the aforesaid standalone financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
- (e) On the basis of the written representations received from the directors as on 31st March, 2019 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2019 from being appointed as a director in terms of Section 164 (2) of the Act.
- (f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "**Annexure - B**".
- (g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - (i) The Company does not have any pending litigations which would impact its financial position.
 - (ii) The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
 - (iii) There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the company.

However unregistered Irrevocable Power of attorney is in the name of Mr. Pawankumar Agrawal, on behalf of the company. The titles have not been conveyed in the name of the company.	91,150/-

(ii) Inventories

As explained to us the company has conducted physical verification at reasonable intervals in respect of inventory. In our opinion, the frequency of such verification is reasonable. In our opinion and according to the information and explanations given to us, the discrepancies noticed on such verification, which were not material, have been properly dealt with in the books of account.

- (iii) According to the information and explanations given to us, the Company has not granted any loans, secured or unsecured to Companies, firms, Limited Liability Partnerships or other parties covered in the register maintained under section 189 of the Act and hence provisions of Clause 3(iii) of the aforesaid Order are not applicable to the Company.
- (iv) According to information and explanation given to us, the Company had given corporate guarantee of Rs. 318.00 Crore for credit facilities availed by its group company namely Fairdeal Supplies Limited from bank.
- (v) According to the information and explanations given to us, the company has not accepted any deposits from the public within the meaning of section 73 to 76 of the act and Rules framed there under to the extend notified. Accordingly, the Paragraph 3(v) of the Order is not applicable to the Company.

- (vi) To the best of our knowledge and based on the information and explanation given to us, the provision of maintenance of cost records under sub-section (1) of section 148(1) of the Act is not applicable to the company.
- (vii) (a) In our opinion and according to information and explanation given to us and on the basis of our examination of records of the Company, the company is generally regular in depositing undisputed statutory dues including Provident fund, Employee's state insurance, Income Tax, Sales Tax, Service Tax, Duty of customs, Duty of Excise, Value added tax, entry tax, cess and other material statutory dues with the appropriate authorities though there has been a slight delay in few cases with regards to value added tax, entry tax, service tax, Goods and Service tax, and income tax (tax deducted at source).

According to the information and explanation given to us, no undisputed amount payable in respect of Provident fund, Employee's state insurance, Income Tax, Sales Tax, Service Tax, Duty of customs, Duty of Excise, Value added tax, entry tax, cess and other material statutory dues were in arrears of statutory dues as at 31st March 2019 except as under mentioned were outstanding for a period of more than 6 Months from the date they becomes payable.

Nature of Dues	Amount (Rs.)

ANNEXURE - B to the Independent Auditor's Report of even date on the Standalone Financial Statement of M/s FRONTLINE CORPORATION LIMITED.

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of *FRONTLINE CORPORATION LIMITED* ('the Company') as of 31st March 2019 in conjunction with our audit of the standalone Ind As financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (The Guidance Note) issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013 (the "Act").

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the standalone Ind AS financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and

- (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, according to the information and explanations given to us and based on our audit, the following material weaknesses have been identified as at 31st March, 2019:

Qualified Opinion

- a) ***The company did not have internal control system for loans and Guarantee with regard to identification and assessment of credit worthiness. Further the internal control system regarding measures adopted for recovery is not adequate. These could potentially result in material misstatements in company's net worth and loans balances.***

In our opinion, because of the effect of the material weaknesses described above on the achievement of the objectives of the control criteria, the company has not maintained adequate and effective internal financial control over financial reporting as of March 31, 2019.

We have considered the material weaknesses identified and reported above in determining the nature, timing, and extent of audit tests applied in our audit of the March 31, 2019 financial statement of the company, and these material weaknesses have affected our opinion on the financial statement of the company and we have issued qualified opinion on the financial statements.

Notes forming part of Standalone Financial Statement for the year ended 31st March, 2019

1. Corporate Information

FRONTLINE CORPORATION LIMITED (“the company”) was incorporated in the year 2003 having its registered office at 4, B.B.D. Bag (EAST), Stephen House, Room No-5, 1st Floor, Kolkata-700 001 to carry out the business of Transportation of Goods, Trading in Automobile parts & Lubricants, Generation of Wind Power, Supply of Man Power and Renting of Immovable property.

2. SIGNIFICANT ACCOUNTING POLICIES:

2.1 Statements of compliance

The standalone financial statements of the company have been prepared in accordance with Indian Accounting Standards (“Ind AS”) notified under section 133 of the Companies act 2013 read together with the rules notified there under. The accounting policies as set out below have been applied consistently to all years presented in the standalone financial statement.

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policies hitherto in use.

As the quarter and year figures are taken from the source and rounded to the nearest digit, the figures reported for the previous quarter might not always added up to the year end figure reported in this statement.

2.2 BASIS OF PREPARATION AND PRESENTATION

These financial statements have been prepared on the historical cost basis, except for certain financial instruments which are measured at fair values at the end of each reporting period, as explained in accounting policies below.

Historical cost is generally based on the fair value of the consideration given in the exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair values of an asset or a liability, the Company takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. The principal or the most advantageous market must be accessible by the Company. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in highest and best use.

When measuring the fair value of an asset or liability, the Company uses observable market data as far as possible. If the inputs used to measure the fair value of an asset or liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement. For assets and liabilities that are recognized in balance sheet on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Fair value for measurement and/or disclosure purposes in these financial statements is determined on such a basis, except for leasing transactions that are within the scope of Ind AS 17, and measurements that have some similarities to fair value but are not fair value, such as net realizable value in Ind AS 2 or value in use in Ind AS 36.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of nature, characteristics and risks of asset or liability and the level of the fair value hierarchy as explained above.

The principal accounting policies are set out below:

2.3 Inventories

Inventories comprise all cost of purchase, and other costs incurred in bringing the inventories to their present location and condition.

Finished goods purchased for sale, are carried at cost or net realisable value whichever is lower. Excise duty is included in the value of finished goods inventory. Obsolete and slow moving items are valued at cost or estimated net realisable value whichever is lower.

2.4 Cash Flow Statement

Cash flows are reported using the indirect method, whereby profit before tax is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows are segregated into operating, investing and financing activities based on the extent of information available.

Cash and cash equivalents:

Cash and cash equivalents comprise cash in hand, demand deposits with banks/corporations and short-term highly liquid investments (original maturity less than 3 months) that are readily convertible into known amount of cash and are subject to an insignificant risk of change in value.

2.5 Taxation

Income tax expense represents the sum of the current tax and deferred tax.

2.5.1 Current Tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the Statement of Profit and Loss because of items of income and expense that are taxable or deductible in the other years and items that are never taxable or deductible. The Company's current tax is calculated using tax rates and laws that have been enacted or substantively enacted by the end of the reporting period.

2.5.2 Deferred tax

Deferred tax is recognized on temporary differences between the carrying amounts of assets and liabilities in the Financial Statements and the corresponding tax bases used in the computation of taxable profit.

Deferred tax liabilities are generally recognized for all taxable temporary differences. Deferred tax assets are generally recognized for all deductible temporary differences to the extent that it is probable that taxable profit will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognized if the temporary difference arises from the initial recognition of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that sufficient taxable profits will be available to allow all or part of the deferred tax asset to be utilised.

Deferred tax liabilities and assets are measured at that are expected to apply in the period in which the liability is settled or the asset realised, based enacted or substantively enacted by the end of the reporting period.

The measurement of the deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

2.5.3 Current and deferred tax for the year

Current and deferred tax expense is recognized in the Statement of Profit and Loss, except when they relate to the items that are recognized in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognized in other comprehensive income or directly in equity respectively.

2.6 Property, Plant and Equipment (Including capital work in progress)

Property, plant and equipment are carried at historical cost less accumulated depreciation and impairment losses, if any. The cost of property, plant and equipment comprises the purchase price net of any trade discounts and rebates, any import duties and other taxes (other than those subsequently recoverable) and includes interest on borrowings attributable to acquisition of qualifying property, plant and equipment to the date the asset is ready for its intended use and other incidental expenses incurred up to that date. Subsequent expenditure relating to property, plant and equipment's is capitalised only if such expenditure results in an increase in the future benefits from such asset beyond its previously assessed standard of performance.

Property, Plant and Equipment acquired and put to use for project purpose are capitalised and depreciation thereon is included in the project cost till the project is ready for its intended use.

Any part or components of property, plant and equipment which are separated identifiable and expected to have a useful life which are different from that of the main assets are capitalised separately, based on the technical assessment of the management.

Projects under which assets are not ready for their intended use and other capital work-in-progress are carried at cost, comprising direct cost, related incidental expenses and attributable interest.

Property, plant and equipment retired from active use and held for sale are stated at the lower of their net book value and net realisable value and are disclosed separately.

Capital work in progress represents projects under the property, plant and equipment's are not intended use and are carried at cost determined as aforesaid.

2.6.1 Depreciation

Depreciation is provided for property, plant and equipment so as to expense the cost over their estimated useful lives based on technical evaluation. The estimated useful lives are reviewed at the end of each reporting period, with the effect of any change in estimate accounted for on a prospective basis.

The estimated useful lives are as mentioned below:

Type of Asset	Depreciation method	Useful lives(Years)
Building	Straight line method	60
Plant and machinery	Straight line method	15
Computer equipment	Straight line method	3
Vehicles(Trucks)	Straight line method	6
Office equipment	Straight line method	5
Electrical installations	Straight line method	10
Furniture & Fixtures	Straight line method	10

2.7 Investment properties:

Investment properties comprise portion of freehold land and office buildings that are held for long-term rental yields and /or for capital appreciation. Investment properties are initially recognized at cost. Subsequently investment property comprising of buildings is carried at cost less accumulated depreciation and accumulated impairment losses, if any.

The cost includes the cost of replacing parts and borrowing costs for long-term construction projects if the recognition criteria are met. When significant parts of the investment property are required to be replaced at intervals, the Company depreciates them separately based on their specified useful lives. All other repair and maintenance costs are recognized in profit and loss as incurred.

Depreciation on building is provided over the estimated useful lives as specified in Schedule II to the Companies Act, 2013. The useful lives and depreciation method of investments properties are reviewed, and adjusted on prospective basis as appropriate, at each balance sheet date. The effects of any revision are included in the statements of profit and loss when the changes arise.

Investment properties are derecognized when either they have been disposed of or when the investment property is permanently withdrawn from use no future economic benefit is expected economic benefit is expected from its disposal.

The difference between the net disposal proceeds and the carrying amount of the asset is recognized in the statements of profit and loss in the period of de-recognition.

2.8 Impairment of non financial assets:

AS at each balance sheet date, the Company assesses whether there is an indication that an asset may be impaired and also whether there is an indication of reversal of impairment loss recognized in the previous periods. If any indication exists, or when annual impairment testing for an asset is required, if any, the company determines the recoverable amount and impairment loss is recognized when the carrying amount of an asset exceeds its recoverable amount.

Recoverable amount is determined:

In the case of an individual assets, at the higher of the fair value less cost to sell and the value in use; and

In the case of cash generating unit (a company of assets that generates identified , independent cash flows), at the higher of the cash generating unit's fair value less cost to sell and the value in use.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transaction can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share price for publicly traded companies or other available fair value indicators.

The Company bases its impairment calculation on detailed budgets and forecast calculations, which are prepared separately for each of the company's CGUs to which the individual assets are allocated. These budget and forecast calculation generally cover a period of five years. For longer periods, a long-term growth rate is calculated and applied to project future cash flows after the fifth year.

Impairment losses of continuing operations, including impairment on inventories, are recognized in the statement of profit and loss, except for properties previously revalued with the revaluation taken to other Comprehensive income (the 'OCI'), if any. For such properties, the impairment is recognized in OCI to the amount of any previous revaluation.

2.9 Intangible assets

Intangible assets are recognized when it is probable that the future economic benefits that are attributable to the assets will flow to the company and the cost of the asset can be measured reliably.

The intangible assets are recorded at cost and amortized on straight line basis over the estimated useful lives as follows:

Intangible Assets	Estimated useful Life (Years)
Software	3

2.10 Amortisation

Intangible assets are amortized over the estimated useful life of 3 years on straight line method.

Intangible assets with indefinite useful lives, if any are not amortised, but are tested for impairment annually, either individually or at the cash-generating unit level. The assessment of indefinite life is reviewed annually to determine whether the indefinite life continues to be supportable. If not, the change in useful life from indefinite to finite is made on a prospective basis.

Gains or losses arising from de-recognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit and loss when the asset is derecognized.

2.11 Revenue recognition

Revenue from contracts with customers

The Company derives revenues primarily from Transportation of Goods, sale of Automobile parts & Lubricants, Wind Power, Supply of Man Power and Renting of Immovable property.

Ind AS 115 "Revenue from Contracts with Customers" provides a control-based revenue recognition model and provides a five step application approach to be followed for revenue recognition.

- Identify the contract(s) with a customer;
- Identify the performance obligations;
- Determine the transaction price;
- Allocate the transaction price to the performance obligations;
- Recognize revenue when or as an entity satisfies performance obligation.

Revenue from contracts with customers is recognized when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services. Revenue excludes amounts collected on behalf of third parties.

Sale of Goods/Services

Revenue is recognized to the extent it is probable that the economic benefits will flow to the company and that the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duties collected on behalf of the government. The Company assesses its revenue arrangements against specific criteria, i.e., whether it has exposure to the significant risks and rewards associated with the sale of goods or the rendering of services, in order to determine if it is acting as a principal or as an agent. Revenue is recognized, net of trade discounts, sales tax, GST or other taxes, as applicable.

Revenue from goods transport services is recognized when goods are delivered to the customers/near transshipment points.

Rent income is recognized on straight line basis over the period of agreement.

Power distribution

Revenue from power distribution business is recognized upon deposit of units of generated power at the grid of the purchasing customer and billing to the customers and includes unbilled revenues accrued up to the end of the accounting year. Customers are billed as per the tariff rates issued by electricity regulatory commission. Interest is accounted on accrual basis on overdue bills.

Interest income

For all financial assets measured either at amortized cost or at fair value through other comprehensive income, interest income is recorded using the effective interest rate (EIR). EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset or to the amortized cost of a financial liability. When calculating the effective interest rate, the company estimates the expected cash flows by considering all the contractual terms of the financial instrument. Interest income is included in other income in the statement of profit and loss.

Other Income

Dividend Income from investments is recognized when the shareholder's right to receive payment is established, which is generally when shareholders approve the dividend.

Insurance claims are accounted for on the basis of claims admitted/expected to be admitted and to the extent that the amount recoverable can be measured reliably and it is reasonable to expect ultimate collection.

2.12 Employee Benefits

Employee benefits are accrued in the period in which the associated services are rendered by the employees of the Company, as detailed below:

Defined contribution plans

The Company's contribution to State Governed provided fund scheme, Employee State Insurance scheme and Employee pension scheme are considered as defined contribution plans and expenses are recognized in the Statement of Profit and Loss based on the amount of contribution required to be made and when services are rendered by the employees.

Defined benefit plans

The cost of the defined benefit plans and the present value of the defined benefit obligation are based on actuarial valuation using the projected unit credit method. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality and its long term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

The Company accrues for liability towards Gratuity which is a defined benefit plan. The present value of obligation under such defined benefit plan is determined based on actuarial valuation as the balance sheet date, using the Projected Unit Credit Method. Remeasurement, comprising actuarial gains and losses, the effect of the changes to the asset ceiling (if applicable) and the return on plan assets (excluding net interest), is reflected immediately in the balance sheet with a charge or credit recognized in other comprehensive income in the period in which they occur. Remeasurement recognized in other comprehensive income is reflected immediately in retained earnings and is not reclassified to profit or loss. Past service cost is recognized in profit or loss in the period of a plan amendment. Net interest is calculated by applying the discount rate at the beginning of the period to the net defined benefit liability or asset. Defined benefit costs are categorized as follows:

- Service cost (including current service cost, past service cost, as well as gains and losses on curtailments and settlements);

- Net interest expense or income; and
- Re measurement

The Company presents the first two components of defined benefit costs in profit or loss in the line item 'Employee benefits expense'. Curtailment gains and losses are accounted for as past service costs.

The retirement benefit obligation recognized in the balance sheet represents the actual deficit or surplus in the Company's defined benefit plans. Any surplus resulting from this calculation is limited to the present value of any economic benefits available in the form of refunds from the plans or reductions in future contributions to the plans.

Compensated absences

Compensated absences which are not expected to occur within twelve months after the end of the period in which the employee renders the related services are recognized as an actuarially determined liability at the present value of the obligation at the Balance sheet date.

2.14 Lease

Operating Lease

As a lessee

Leases in which a significant portion of the risks and rewards of ownership are not transferred to the Company, as lessee, are classified as operating leases. Payments made under operating leases are charged to the Statement of Profit and Loss on a straight-line basis over the period of the lease unless the payments are structured to increase in line with expected general inflation to compensate for the Company's expected inflationary cost increases.

As a lessor

Lease income from operating leases where the Company is a lessor is recognised in income on a straight-line basis over the lease term unless the receipts are structured to increase in line with expected general inflation to compensate for the excepted inflationary cost increases. The respective leased assets are included in the balance sheet based on their nature.

2.15 Foreign Currency transactions:

The functional currency of the Company is Indian Rupees which represents the currency of the primary economic environment in which it operates.

"In preparing the financial statements, transactions in currencies other than the entity's functional currency (foreign currencies) are recognized at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items are carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing at the date when the fair value was determined.

2.16 Borrowing costs:

- a) Borrowing costs that are attributable to the acquisition, construction, or production of a qualifying asset are capitalized as a part of the cost such asset till such time the asset is ready for its intended use or sale. A qualifying asset is an asset that necessarily requires a substantial period of time (generally over twelve months) to get ready for its intended use or sale.
- b) All other borrowing costs are recognized as expenses in the period in which they are incurred.

2.17 Financial instruments

Financial assets and financial liabilities are recognized when a Company entity becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognized immediately in profit or loss.

2.17.1 Financial assets

All regular way purchases or sales of financial assets are recognized and derecognized on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

All recognized financial assets are subsequently measured in their entirety at either amortized cost or fair value, depending on the classification of the financial assets.

Classification of financial assets

Debt instruments that meet the following conditions are subsequently measured at amortized cost:

- The asset is held within a business model whose objective is to hold assets in order to collect contractual cash flows; and
- the contractual terms of the instrument give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

For the impairment policy on financial assets measured at amortised cost, refer para of Impairment of financial assets.

Debt instruments that meet the following conditions are subsequently measured at fair value through other comprehensive income:

- The asset is held within a business model whose objective is achieved both by collecting Contractual cash flows and selling financial assets; and
- the contractual terms of the instrument give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Interest income is recognized in profit or loss for FVTOCI debt instruments. For the purposes of recognizing foreign exchange gains and losses, FVTOCI debt instruments are treated as financial assets measured at amortized cost. Thus, the exchange differences on the amortized cost are recognized in profit or loss and other changes in the fair value of FVTOCI financial assets are recognized in other comprehensive income and accumulated under the heading of 'Reserve for debt instruments through other comprehensive income'. When the investment is disposed of, the cumulative gain or loss previously accumulated in this reserve is reclassified to profit or loss.

For the impairment policy on debt instruments at FVTOCI, refer Para of Impairment of financial assets. All other financial assets are subsequently measured at fair value.

Effective interest method

The effective interest method is a method of calculating the amortized cost of a debt instrument and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the debt instrument, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Income is recognized on an effective interest basis for debt instruments other than those financial assets classified as at FVTPL. Interest income is recognized in profit or loss and is included in the "Other income" line item.

Financial assets at fair value through profit or loss (FVTPL)

Debt instruments that do not meet the amortised cost criteria or FVTOCI criteria (see above) are measured at FVTPL. In addition, debt instruments that meet the amortised cost criteria or the FVTOCI criteria but are designated as at FVTPL are measured at FVTPL.

Financial assets at FVTPL are measured at fair value at the end of each reporting period, with any gains or losses arising on remeasurement recognized in profit or loss. The net gain or loss recognized in profit or loss incorporates any dividend or interest earned on the financial asset and is included in the 'Other income' line item. Dividend on financial assets at FVTPL is recognised when the Company's right to receive the dividends is established, it is probable that the economic benefits associated with the dividend will flow to the entity, the dividend does not represent a recovery of part of cost of the investment and the amount of dividend can be measured reliably.

Impairment of financial assets

The Company applies the expected credit loss model for recognizing impairment loss on financial assets measured at amortized cost, debt instruments at FVTOCI, lease receivables, trade receivables, other contractual rights to receive cash or other financial asset, and financial guarantees not designated as at FVTPL.

Expected credit losses are the weighted average of credit losses with the respective risks of default occurring as the weights. Credit loss is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the Company expects to receive (i.e. all cash shortfalls), discounted at the original effective interest rate (or credit-adjusted effective interest rate for purchased or originated credit-impaired financial assets). The Company estimates cash flows by considering all contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) through the expected life of that financial instrument.

The Company measures the loss allowance for a financial instrument at an amount equal to the lifetime expected credit losses if the credit risk on that financial instrument has increased significantly since initial recognition. If the credit risk on a financial instrument has not increased significantly since initial recognition, the Company measures the loss allowance for that financial instrument at an amount equal to 12-month expected credit losses. 12-month expected credit losses are portion of the life-time expected credit losses and represent the lifetime cash shortfalls that will result if default occurs within the 12 months after the reporting date and thus, are not cash shortfalls that are predicted over the next 12 months.

If the Company measured loss allowance for a financial instrument at lifetime expected credit loss model in the previous period, but determines at the end of a reporting period that the credit risk has not increased significantly since initial recognition due to improvement in credit quality as compared to the previous period, the Company again measures the loss allowance based on 12-month expected credit losses.

When making the assessment of whether there has been a significant increase in credit risk since initial recognition, the Company uses the change in the risk of a default occurring over the expected life of the financial instrument instead of the change in the amount of expected credit losses. To make that assessment, the Company compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition and considers reasonable and supportable information, that is available without undue cost or effort, that is indicative of significant increases in credit risk since initial recognition.

For trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 11 and Ind AS 18, the Company always measures the loss allowance at an amount equal to lifetime expected credit losses.

Further, for the purpose of measuring lifetime expected credit loss allowance for trade receivables, the Company has used a practical expedient as permitted under Ind AS 109. This expected credit loss allowance is computed based on a provision matrix which takes into account historical credit loss experience and adjusted for forward-looking information.

The impairment requirements for the recognition and measurement of a loss allowance are equally applied to debt instruments at FVTOCI except that the loss allowance is recognized in other comprehensive income and is not reduced from the carrying amount in the balance sheet.

Derecognition of financial assets

The Company derecognizes a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party.

On derecognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognized in other comprehensive income and accumulated in equity is recognized in profit or loss if such gain or loss would have otherwise been recognized in profit or loss on disposal of that financial asset.

On derecognition of a financial asset other than in its entirety (e.g. when the Company retains an option to repurchase part of a transferred asset), the Company allocates the previous carrying amount of the financial asset between the part it continues to recognize under continuing involvement, and the part it no longer recognizes on the basis of the relative fair values of those parts on the date of the transfer. The difference between the carrying amount allocated to the part that is no longer recognized and the sum of the consideration received for the part no longer recognized and any cumulative gain or loss allocated to it that had been recognized in other comprehensive income is recognized in profit or loss if such gain or loss would have otherwise been recognized in profit or loss on disposal of that financial asset. A cumulative gain or loss that had been recognized in other comprehensive income is allocated between the part that continues to be recognized and the part that is no longer recognized on the basis of the relative fair values of those parts.

2.17.2 Financial liabilities

All financial liabilities are subsequently measured at amortized cost using the effective interest method or at FVTPL.

However, financial liabilities that arise when a transfer of a financial asset does not qualify for derecognition or when the continuing involvement approach applies, financial guarantee contracts issued by the Company, and commitments issued by the Company to provide a loan at below-market interest rate are measured in accordance with the specific accounting policies set out below.

Financial liabilities subsequently measured at amortized cost

Financial liabilities that are not held-for-trading and are not designated as at FVTPL are measured at amortized cost at the end of subsequent accounting periods. The carrying amounts of financial liabilities that are subsequently measured at amortized cost are determined based on the effective interest method. Interest expense that is not capitalized as part of costs of an asset is included in the 'Finance costs' line item.

The effective interest method is a method of calculating the amortized cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the net carrying amount on initial recognition.

Financial guarantee contracts

A financial guarantee contract is a contract that requires the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payments when due in accordance with the terms of a debt instrument.

Financial guarantee contracts issued by a Company entity are initially measured at their fair values and, if not designated as at FVTPL, are subsequently measured at the higher of:

- The amount of loss allowance determined in accordance with impairment requirements of Ind AS 109; and
- The amount initially recognized less, when appropriate, the cumulative amount of income recognized in accordance with the principles of Ind AS 18.

Derecognition of financial liabilities

The Company derecognizes financial liabilities when, and only when, the Company's obligations are discharged, cancelled or have expired. An exchange between with a lender of debt instruments with substantially different terms is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. Similarly, a substantial modification of the terms of an existing financial liability (whether or not attributable to the financial difficulty of the debtor) is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. The difference between the carrying amount of the financial liability derecognized and the consideration paid and payable is recognized in profit or loss.

Financial liabilities at FVTPL are stated at fair value, with any gains or losses arising on remeasurement recognized in profit or loss. The net gain or loss recognized in profit or loss incorporates any interest paid on the financial liability and is included in the 'Other income' line item.

2.18 Earnings per share

Basic earnings per share are computed by dividing the net profit after tax by weighted average number of equity shares outstanding during the period. Diluted earnings per share is computed by dividing the profit after tax by weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares, if any

2.19 Provisions and Contingencies

Provisions are recognized when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material).

Contingent assets are disclosed in the Financial Statements by way of notes to account when an inflow of economic benefits is probable.

Contingent liability is disclosed in the case of:

- A present obligation arising from past events, when it is not probable that an outflow of resources will be require to settle the obligation ;
- A present obligation arising from past events, when no reliable estimate is possible; and
- A present obligation arising from past events, unless the probability of outflow of resources is remote.

Commitments include the amount of purchase order (net of advances) issued to parties for completion/ purchase of assets.

Provisions, contingent liabilities, contingent assets and commitments are reviewed at each balance sheet date.

Warranty provisions

Provisions for warranty-related costs are recognized when the product is sold or service provided to the customer. Initial recognition is based on historical experience. The initial estimate of warranty-related cost is revised annually.

Litigation claims:

Provision for litigation related obligation represents liabilities that are expected to materialise in respect of matters in appeal.

2.20 Non-Current assets held for sale

Non-current assets or disposal companies classified as held for sale are measured at lower of carrying amount and fair value less costs to sell.

Non-current assets or disposal companies are classified as held for sale if their carrying amounts will be recovered principally through a sale transaction rather than through continuing use. This condition is regarded as met only when the sale is highly probable and the asset or disposal company is available for immediate sale in its present condition subject only to terms that are usual and customary for sale of such assets. Management must be committed to sale, which should be expected to qualify for recognition as a completed sale within one year from the date of classification as held for sale, and actions required to complete the plan of sale should indicate that it is unlikely that significant changes to the plan will be made or that the plan will be withdrawn.

Property, Plant and Equipment and intangible assets are not depreciated or amortised once classified as held for sale.

2.21 Operating Segment

Operating Segment reflect the Company's management structure and the way the financial information is regularly reviewed by the Company's Chief Operating Decision Maker (CODM). The CODM considers the business from both business and product perspective based on the dominant source, nature of risks and returns and the internal organisation and management structure. The operating segments for which separate financial information is available and for which operating profit/ (loss) amounts are evaluated regularly by executive Management in deciding how to allocate resources and in assessing performance.

The accounting policies adopted for segment reporting are in line with the accounting policies of the Company. Segment revenue, segment expenses, segment assets and segment liabilities have been identified to segments on the basis of their relationship to the operating activities of the segment.

Revenue, expenses, assets and liabilities which relate to the Company as a whole and are not allocable to segments on reasonable basis have been included under unallocated revenue/expenses/assets/liabilities.

Segment accounting

The Chief Operational Decision Maker monitors the operating results of its business segments separately for the purpose of making decisions about resources allocation and performance assessment. Segment performance is evaluated based on profit or loss and is measured consistently with profit or loss in the financial statements.

The Operating segments have been identified on the basis of the nature of products / services.

Segments revenue includes sales and other income directly identifiable with/allocable to the segment including inter-segments revenue.

Expenses that are directly identifiable with/allocable to segments are considered for determining the segment result. Expenses which relate to the company as a whole and not allocable to segments are included under UN allocable expenditure.

Income which relates to the company as a whole and not allocable to segments is included in UN allocable income.

Segment result includes margins on inter-segments sales which are reduced in arriving at the profit before tax of the company.

Segments assets and liabilities include those directly identifiable with the respective segments. UN allocable assets and liabilities represent the assets and liabilities that relate to the company as whole and not allocable to any segment.

Inter-Segments transfer pricing:

Segments- revenue resulting from transactions with other business segments is accounted on the basis of transfer price agreed between the segments. Such transfer prices are either determined to yield a desired margin or agreed on a negotiated basis.

2.22 Operating Cycle

All the assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in Notes. Based on the nature of products and services and the time between the acquisition of assets for processing and their realisation in cash and cash equivalent, the Company has ascertained its operating cycle as 12 months for the purpose of current and non-current classification of assets and liabilities.

2.23 Exceptional Items:

On certain occasions, the size, type or incidence of an item of income or expense, pertaining to ordinary activities of the Company is such that its disclosure improves the understanding of the performance of the Company, such income or expense is classified as an exceptional item and accordingly, disclosed in the notes accompanying to the financial statements.

2.24 Current and Non-current classification:

The Company presents assets and liabilities in the balance sheet based on current/non-current classification.

An asset is current when it is:

- Expected to be realized or intended to be sold or consumed in normal operating cycle,
- Held primarily for the purpose of trading,
- Expected to be realized within twelve months after the reporting period, Or
- Cash or Cash Equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle,
- It is held primarily for the purpose of trading,
- It is due to be settled within twelve months after the reporting period, Or
- There is no unconditional right to defer the settlement of liability for at least twelve months after the reporting period.

Deferred tax assets/liabilities are classified as non-current.

All other assets are classified as non-current.

3. Significant Accounting Judgements, Estimates and Critical Accounting Assumptions:

The preparation of financial statements in conformity with Ind AS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, disclosures of contingent liabilities at the date of financial statements and the reported amounts of revenue and expenses for the years presented. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

In particular, information about significant areas of estimation, uncertainty and critical judgements in applying accounting policies that have the most significant effect on the amount recognized in the financial statements pertain to:

3.1 Useful lives of property, plant and equipment and intangible assets:

The Company has estimated useful life of each class of assets based on the nature of assets, the estimated usage of asset, the operating condition of the asset, past history of replacement, anticipated technological changes, etc. The Company reviews the carrying amount of property, plant and equipment and intangible assets at the end of each reporting period. This reassessment may result in change in depreciation expense in future periods.

Depreciation on Property, Plant and Equipment is provided pro-rata for the periods of use on straight line method (SLM) on the basis of useful life of the property, plant and equipment mandated by Part C of Schedule II of the Companies Act, 2013 or the useful life determined by the company based on technical evaluation, whichever is lower, taking into account the nature of asset, the estimated usage of asset, the operating conditions of the asset, past history of replacement, maintenance support, as per details given below:

3.2 Impairment of Tangible and Intangible Assets other than Goodwill

Property, Plant and Equipment and Intangible assets are tested for impairment when events occur or changes in circumstances indicate that the recoverable amount of cash generating unit is less than its carrying value. The recoverable amount of cash generating units is higher of value-in-use and fair value less cost to sell. The calculation involves use of significant estimates and assumptions which includes turnover and earnings multiples, growth rates and net margins used to calculate projected future cash flows, risk-adjusted discount rate, future economic and market conditions.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to asset for which the estimates for future cash flows have not been adjusted.

At each Balance Sheet date, consideration is given to determine whether there is any indication of impairment of the carrying amount of the Company's assets. If any indication of impairment of carrying amount of the Company's assets. If any indication exists, estimation is made for the asset's recoverable amount, which is greater of the net selling price and the value in use. An impairment loss, if any, is recognized whenever the carrying amount of an asset exceeds the recoverable amount.

Impairment losses of continuing operations, including impairment on inventories, if any, are recognized in profit or loss section of the statement of profit or loss.

3.3 Provision against Investments/Loans and Advances

The management taking into account the present operations of the Company proposed restructuring, future business prospects etc. to make provision towards impairment on carrying value of investments and loans and advance given.

3.4 Employee Benefits – Defined Benefit Obligation (DBO)

Management's estimate of the DBO is based on a number of critical underlying assumptions such as standard rates of inflation, medical cost trends, mortality, discounts rate and anticipation of future salary increases. Variation in these assumptions may significantly impact the DBO amount and the annual defined benefit expenses.

3.5 Standards issued but not yet effective:

The amendments to standards that are issued, but not yet effective, up to the date of issuance of the Company's financial statements are disclosed below. The Company intends to adopt these standards, if applicable, when they become effective. The Ministry of Corporate Affairs (MCA) has issued the Companies (Indian Accounting Standards) Amendment Rules, 2017 and Companies (Indian Accounting Standards) Amendment Rules, 2018 amending the following standard:

I) Ind AS 116 Leases

Ind AS 116 Leases was notified by MCA on 30 March 2019 and it replaces Ind AS 17 Leases, including appendices thereto. Ind AS 116 is effective for annual periods beginning on or after 1 April 2019. Ind AS 116 sets out the principles for the recognition, measurement, presentation and disclosure of leases and requires lessees to account for all leases under a single on-balance sheet model similar to the accounting for finance leases under Ind AS 17. The standard includes two recognition exemptions for lessees – leases of 'low-value' assets (e.g., personal computers) and short-term leases (i.e., leases with a lease term of 12 months or less). At the commencement date of a lease, a lessee will recognise a liability to make lease payments (i.e., the lease liability) and an asset representing the right to use the underlying asset during the lease term (i.e., the right-of-use asset). Lessees will be required to separately recognise the interest expense on the lease liability and the depreciation expense on the right-of-use asset.

Lessees will be also required to remeasure the lease liability upon the occurrence of certain events (e.g., a change in the lease term, a change in future lease payments resulting from a change in an index or rate used to determine those payments). The lessee will generally recognise the amount of the remeasurement of the lease liability as an adjustment to the right-of-use asset.

Lessor accounting under Ind AS 116 is substantially unchanged from today's accounting under Ind AS 17. Lessors will continue to classify all leases using the same classification principle as in Ind AS 17 and distinguish between two types of leases: operating and finance leases.

The Company intends to adopt these standards from 1 April 2019. The impact on adoption of Ind AS 116 on the financial statements is given below. Ind AS 116 also requires lessees and lessors to make more extensive disclosures than under Ind AS 17.

The company is evaluating the requirements of the amendment and the effect on the financial statements is being evaluated.

Valuation technique used to determine fair value:

Specific valuation techniques used to value financial instruments include:
the use of quoted market prices or dealer quotes for similar instruments

Fair Value of Financial Assets & Liabilities measured at amortized cost

- ✓ The carrying amounts of trade receivables, trade payables, capital creditors and cash and cash equivalents are considered to be the same as their fair values, due to their short-term nature.
- ✓ The fair values of non-current borrowings are based on discounted cash flows using a current borrowing rate. They are classified as level 3 fair values in the fair value hierarchy due to the use of unobservable inputs, including own credit risk. They are subsequently measured at amortised cost at balance sheet date.

Liquidity Risk

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due and to close out market positions. Due to the dynamic nature of the underlying businesses, Company treasury maintains flexibility in funding by maintaining availability under committed credit lines.

Management monitors rolling forecasts of the Company's liquidity position and cash and cash equivalents on the basis of expected cash flows. This is generally carried out at local level in the operating companies of the Company in accordance with practice and limits set by the Company. These limits vary by location to take into account the liquidity of the market in which the entity operates. In addition, the Company's liquidity management policy involves projecting cash flows in major currencies and considering the level of liquid assets necessary to meet these, monitoring balance sheet liquidity ratios against internal and external regulatory requirements and maintaining debt financing plans.
